- Common Dysfunction of the Thorax
- Common Dysfunction of the Low Back and Pelvis

Unit 6: Comprehensive Testing - TBA

Written and Practical testing of the material presented throughout the program.

Units One and Two are mandatory prior to all other units.

Other Units may then be taken in any order.

Payment Options: (\$300 deposit required to hold position. Deposit includes the required textbooks, tools and supplies for the class. Class size is limited to 16)

1. All Units paid in full in advance: \$1350.00 + deposit
2. Units 1-5 paid in advance of each Unit: \$315.00 + deposit
3. Unit 6 – Comprehensive Testing - \$100

Refund Policy: No refund on the deposit. Withdrawing after beginning January 17 includes administrative fees of 10% and equivalent of hourly rate for hours attended. Registrant keeps the textbooks, tools and supplies.

Commitment: Completing all the requirements for certification will require the therapist to commit approximately 12-16 hours of study time each week. It is a lengthy program, plan ahead mentally and physically. Please do not consider this program unless you are willing to fully commit yourself to completing this program.

Successful completion of the course will require:

- attendance at all classes or scheduled make-up equal to 100 hours of time in the classroom.
- passing all exams, online, written and practical
- turn in all required homework in a timely fashion
- documentation of working a minimum of four events
- proof of current certification in CPR and First-aid at the time of Unit 6.

Written Materials: Very few printed handouts will be provided. The majority of the lecture material will be provided electronically before each class. In addition, there will be an extensive reading list for the first two units and supplemental readings for units 2-5.

Communication: Participants will need access to a computer daily as the primary form of communication with and about the class is done electronically.

Testing: The testing following each unit is done electronically. The online testing for each unit will be available for a limited time at the end of each unit. It is the responsibility of the attendee to plan for and take the tests in a timely fashion.

Required textbooks: (provided)

The Trigger Point Therapy Workbook, au: Claire Davies
Trail Guide to the Body 5th Edition
Trail Guide to Movement

Instructor:

Hugh Bofenkamp, MS, CIPI
MI: 1598
CEP: 582

Additional instructors may be introduced into the program based on enrollment and subject material.

*Past programs have been fortunate to visit the Texas Chiropractic College Cadaver Lab to advance our knowledge of Anatomy. While we cannot guarantee this program will have that opportunity, we will make an effort to visit if the schedule allows and the college is willing.

At this time there are two scheduled events that participants may choose to attend. We are endeavoring to schedule more. These events will not be held at the TSOM. Other events to fulfill the program requirement are the responsibility of the participant.
